

Overview

VENZA's programs are carefully curated collections of products that work together to mitigate data security vulnerabilities and ensure compliance.

As a comprehensive solution, VENZA's system of 360-degree visibility for proactive management of risks helps to keep your guests and their data safe, so you can focus on great service and continuing to build the trust guests have in your brand.

PROGRAMS TO MANAGE DATA PROTECTION RISKS

The Everest Program contains everything in the Denali and more.

Denali™

Everest™

According to a **comprehensive analysis** of over 90 major rate schedules, strong security awareness training and information security policy can increase your eligibility for cybersecurity insurance and lower your premiums.

Program Coach

Customer Success Coaches guide the rollout of products with a constant, dedicated point of contact.

VENZA Risk Dashboard & Reporting™

An integrated platform for managing and interpreting data across VENZA products.

VENZA Learning™ Content Library

Tools to build InfoSec awareness and provide unique, ongoing learning experiences.

VENZA PEAK™ Learning Management System

A tailored LMS to track all parts of the security awareness training and data protection program.

Hospitality Webinar Series (Quarterly)

Scheduled webinars on critical issues in hospitality, featuring experts from VENZA.

Spot Check Awareness Auditor™

Surveys across organizational levels to assess the relevance and impact of information security policy.

VENZA Phishing™

Simulated real-world social engineering attempts to identify and correct vulnerabilities.

Policy Templates Library

Prepared templates to create company policy quickly and accurately for practices that affect information security.

Data Breach Coverage

\$100,000 of insurance coverage for privacy breaches, covering forensic examination, PCI assessments, and more.

Vendor Security Assessment Tool

Platform to assess vendor risk and maintain documentation for regulatory compliance.

External ASV Scanning

Quarterly external vulnerability scans by an Approved Scanning Vendor for PCI DSS compliance.

PCI SAQ Assistance

Assistance to prepare and complete the PCI DSS Self-Assessment Questionnaire (SAQ).
